<b>CONSERVATION CONTACTS</b> .....	48
------------------------------------	----

The mission of the **Pocono Environmental Education Center** is to advance environmental awareness, knowledge, and skills through education in order that those who inherit the planet may better understand the complexity of natural and human-designed environments.

The mission of the **Center for Russian Nature Conservation (CRNC)** is to promote the conservation of nature in Russia and throughout the former Soviet Union, and to assist conservation groups in that region through information exchange, coordination of professional and educational exchanges, and provision of technical assistance to protected areas. CRNC is a project of the Tides Center.

Center for  
Russian Nature  
Conservation
