 East Fennoscandia.....47
 Flora of the Murmansk Oblast.....47

CONSERVATION CONTACTS.....48

The mission of the **Pocono Environmental Education Center** is to advance environmental awareness, knowledge, and skills through education in order that those who inherit the planet may better understand the complexity of natural and human-designed environments.

The mission of the **Center for Russian Nature Conservation (CRNC)** is to promote the conservation of nature in Russia and throughout the former Soviet Union, and to assist conservation groups in that region through information exchange, coordination of professional and educational exchanges, and provision of technical assistance to protected areas. CRNC is a project of the Tides Center.

Center for
 Russian Nature
 Conservation

This issue of Russian Conservation News was produced with support from the Weeden Foundation, the Morrison Family Foundation, the Species Action Fund of the World Wildlife Fund, and many individual donors.

Special thanks to Andrea Williams, Charles Dewey, Jonathan Sachs, Andrew Sabin and Rodney Cole for their generous support of this journal.
